

Application

The T-5 turnstile provides a low-cost entrance control solution for businesses and organisations. With the functionality, mechanics and electronics similar to those of the TTR-04.1 series, this turnstile features a simpler construction design and light indication.

Delivery set

- turnstile with built-in electronics
- remote control panel
- standard/anti-panic barrier arms (the type is chosen by a Client at the time of order)

Materials and Finishes

Turnstile housing – steel.
Sandpaper powder coating:

light grey

Barrier arms – stainless steel/painted steel, black.
